MobileIron Installation

Dear Parents

We are ready to move to the next phase of the implementation of the Rosary BYOD 1:1 iPad Program - the installation of apps. This will be done through the app MobileIron.

MobileIron is a MDM (Mobile Device Management) system that is located at the Catholic Education Office and administered by the Catholic Education IT Team. It enables the school to easily distribute apps (paid and free) to personally owned mobile devices. It can also be used to configure settings such as the school’s wireless network.

Instructions on how to install MobileIron have been emailed to parents and will be uploaded onto the iPad page of the school website. Once installed, MobileIron will be used to distribute school-identified apps.

You will require the following to successfully download and install MobileIron.

- An activated Apple ID
- Access to the Internet
- School account details (this is the username and password students use to logon to the computers at school)

Instructions for the installation of MobileIron have been provided by the CEO and we ask you to follow the steps carefully as incorrect installation may result in the app not working.

When you get to steps 4, 5 and 8 the desired field will not appear until the information from the previous step is entered. eg You cannot enter the server information (step 5) until you have entered the username (step 4).
Student’s computer logon details. (The password will be different if the student has changed it from the default)

<table>
<thead>
<tr>
<th>Student Name</th>
<th>Class:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Username:</td>
<td></td>
</tr>
<tr>
<td>Password:</td>
<td></td>
</tr>
</tbody>
</table>

Once you have completed all steps for the installation of MobileIron the app “Explain Everything” should be on your iPad. We ask you to use “Apps@School” (which was installed during the process) to download

- Book Creator
- Notability
- QR Code Reader
- Tools 4 Students
- Edmodo
- Popplet

These can be found using the “Categories” tab (at the top of the screen) under “student” and “Uncategorized” (on the left of the screen).

Please note: If there is a price next to the app, such as Creative Book Builder, this is not to be downloaded as it will incur a cost. Only download apps that have “FREE” or “PREPAID” next to them.

We are asking Yr 5 students to bring their iPad to school this Friday and Yr 6 students to bring their iPads next Wednesday (18th). It would be wonderful if the apps listed above could have been installed by then but don’t worry if they have not been. Please do not send the iPad if you have not yet purchased/received a cover for your iPad. Your child will be able to use a school iPad.
